Gmanifesto Introduction

In reference to Joseph Beuys thoughts, we turn towards Art, the way of which is communication and community, and the aim of which is to rebuild interpersonal relationships. We join the manifesto of Paweł Althamer *Complete family is coming out of shadow*, which invite all excluded artists who are rejected by the system, but want to have a complete family, complete family meaning everyone in the society.

There is no other manifestation than the one based on love and peace. Other manifestations has no sense and all of them are derivatives and simple misunderstanding. We can struggle and wrestle, but all in all we want to understand one another. This is why, I invite all my friends, excluded and included artists, who are called artists, but let's use a proper word, free people, who love, peace and know that love is the only power allowing us to meet (in every possible circumstances), and share the only sensitive and beautiful truth that we are all united.

Actually, the whole *Od:zysk (Re:claim) squat*, its situation is a Work of Art, and all of us, its inhabitants, all collective and our friends, we are its creators. Used our common and creative force we did build this place. Creation become our condition to survive and creativity become our way to repair world around us. (The Art, which in the Art-World became a commodity, in our situation is impossible, because there is no border between artists and art-receipients.) Here an artist is not a special kind of human, but every human is a special kind of artist.

As a Re:claim-ed family, oversensitive allerGics,
we invite all to a common creation.
We are open for you, for you and for us.
Let's Re:claim the art together.
